

DIAMOND
METAL SCREENS PVT.LTD

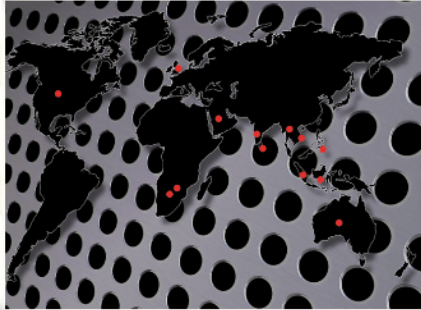

Perforated Rolling Shutters

ABOUT US

Diamond Metal Screens Pvt.Ltd is one of the biggest perforators in Asia. Established in Belgaum, Karnataka in 1989 and with infrastructure spread over 30000 sq.ft area,DMS manufactures and delivers the highest quality of perforated metal required in various products.

DMS exports to the UK,Thailand,Phillipines,Middle East,USA, South Africa and other countries.

The state of art perforating equipment from Schuler, Wagner, Sonen and LVD are the heart of DMS.Our inhouse tooling facility makes it possible to deliver virtually any kind of pattern or design which you may require.

WHY DMS ROLLING SHUTTERS?

Now perforate your shutters!

With the latest infrastructure in DMS, perforation of coil to coil,suitable for rolling shutter slats, is now possible in India.

Just write to us with your design,or simply choose one of our designs.

Rolling shutters have an edge over normal shutters in that:

- 1.They allow the passage of light and ventilate the interiors.
- 2.Provide a view of the interior display and at the same time not compromising on security.This is particularly ideal for malls.

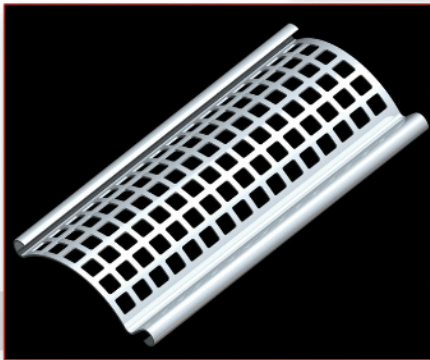

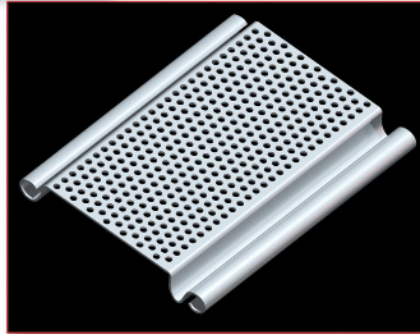

Add a punch to your design,we say.
